EXPECTING STAND ON LEAGUE TO DRAW FIRE

Republican Nominee Said To Invite Attack by Democrats On Stand Regarding Peace

Aggressive Attack on Wilson Foreign Policy is Indicated

(By Associated Press.)

Marion, O., July 23.—Senator Harding's stand on the league of nations, outlined yesterday in his acceptance speech, was expected today by his managers here to furnish the chief bone of contention during the next stage of the political campaign.

They declared the candidate prepared to carry on his attack on the Wilson foreign policy aggressively, and they predicted that his advocacy of a declaration of peace followed by negotiations of a world "understanding" for international justice and amity, based on moral force, would help the issue along toward a commanding place in the presidential race.

Democratic demands that the candidate make a more specific exposition of details of the proposed "understanding" are fully expected here, and the Senator's friends declare he will be ready to answer.

In that connection, they single out today one paragraph in the acceptance speech as indicating what trend his reply might follow.

"If men call for more specific details," he said, "I remind them that moral commitments are broad and all inclusive, and we are contemplating peoples in the concord of humanity's advancement."

"From our own view point, the program is specifically American, and we mean to be American first to all the world."

Delaware Negro Who Had Twice Escaped Pays Penalty For Crime.

(By Associated Press.)

Wilmington, Delaware, July 23.—After an unsuccessful effort to commit suicide in his cell, Isaiah Fountain, colored, was hanged early today in the jail of Easton, Maryland. A police man found Fountain trying to hang himself with bedclothing.

Fountain was convicted twice on the charge of criminally assaulting Bertha Simpson, a white girl 14 years old. He escaped twice and thousands joined in the search for him. The state paid a reward of \$5,000 for his second capture.

The snapshots above were taken during the first two races between the Shamrock IV and the Resolute. The Resolute's officers, as shown in one of the pictures,

are, left to right: Arthur Adams, John Parkinson, Robert W. Simmons, 2nd, George A. Cormack and Charles Francis Adams, skipper of the yacht. The old

gentleman in the center who is pointing his finger is W. E. Simmons, who has witnessed every international yacht race since 1876.

W. J. BRYAN REFUSES TO BE A CANDIDATE

Declares Other Interests Make it Impossible and that He is Unwilling to Sever With Democratic Party.

(By Associated Press.)

Bozeman, Mont., July 22.—William Jennings Bryan tonight reiterated his refusal to accept the Prohibition Party nomination.

The first intimation of his nomination for the presidency by the prohibition convention was received by him at one o'clock this afternoon at Madison Lake, up his return from a forenoon of fishing, when he read an Associated Press dispatch giving the text of the telegram sent to him by the convention at Lincoln.

He was forty miles from any telegraph office at the time but as soon as he reached Norris, Montana, he telegraphed a reply declining the nomination.

MR. BRYAN'S TELEGRAM

Mr. Bryan, in his telegram, said in part: "I share the convention's disappointment at the failure of the Democratic and Republican parties to pledge their candidates to a policy of strict enforcement of the Volstead act, but I cannot in justice to the Prohibition Party, nor to myself, accept."

"My connection with other reforms would make it impossible for me to focus my attention upon the prohibition question alone, and besides I am

not willing to sever my connection with the Democratic Party, which has so signally honored me in years past. "I have not decided yet how I shall vote this fall, but whatever I may feel it my duty to do in this campaign, I expect to continue as a member of the Democratic Party and to serve my country through it."

PROHIBITION CONVENTION STUNNED BY NEWS

Lincoln, Neb., July 22.—Delegates to the prohibition national convention were completely non-pulsed when informed by the Associated Press tonight that William J. Bryan had flatly refused to accept the nomination. It had been believed generally that he would accept. The convention was in recess when the first dispatches were received and a funeral could not have given a more disconsolate appearance around the prohibition headquarters.

POLAND ASKS UNITED STATES FOR SUPPORT

(By Associated Press.)

Washington, July 23.—Poland has asked the State Department to formally announce to the world the "moral support" of the United States to Poland in its battle with the Bolsheviks.

The suggestion also was made that a similar expression from President Wilson would be welcomed.

HARDING SENDS WIRE TO SOLON IN TENNESSEE

(By Associated Press.)

Marion, O., July 23.—"Earnest hope" that Republican members of the Tennessee legislature will support ratification of the woman suffrage amendment was expressed today by Senator Harding in telegram to John C. Houk, a republican member of the Senate of that state.

COX SENDS MEN TO AID IN GETTING 36TH VOTE

Surprises Women From National Women's Party by Sending Personal Representatives

Democratic Nominee Remains Silent On Bryan Refusal To Accept and Harding Speech.

(By Associated Press.)

Columbus, O., July 23.—Governor Cox democratic presidential nominee today told a delegation from the National Women's Party that he already had "two or three men" working among members of the Tennessee legislature to secure the 36th vote needed for ratification of the Federal Woman Suffrage amendment.

The suffrage delegation asked the Governor to send a personal representative to Tennessee and were surprised and gratified to hear the candidate had "beaten them to it," as they said.

His position of withholding comment on the acceptance address of Senator Harding was continued today by Governor Cox who also declined to comment on W. J. Bryan's refusal of the prohibition presidential nomination.

AMERICA'S NEW ARMY IS FORMING

Military Branch Being Revolutionized Under New Army Bill Passed by Congress

National Guard Plays Prominent Part.

(By Associated Press.)

Washington, July 23.—America's military establishment is being practically revolutionized under the terms of the new army reorganization bill which became effective July 1. Army officers say work will not be completed for some months because of the broad scope of the measure passed at the last session of Congress to place the land forces on a permanent basis.

While the regular army will contain only 295,000 officers and men scattered over the country and the insular possessions, it will be so arranged in conjunction with the National Guard and the Reserve that rapid expansion of the nation's fighting forces in time of emergency will be possible.

The National Guard will have about 440,000 officers and men, but the strength of the reserve has not been worked out and will depend largely on the enlistment of eligibles. The regular army reserve as it formerly existed, composed of former enlisted men furloughed to the reserve to complete their enlistment period ceased to exist as such July 1. In its place there is established the enlisted reserve corps and the officers reserve corps. The members of the former, except veterans of the world war, are required to enlist for three years. Veterans of the world war may enlist for only one year.

The officers reserve corps is composed of officers who held temporary or reserve commissions during the war emergency and graduates of the student officers training school.

To accomplish the reorganization of the National Guard and the initial organization of the reserve, the army bill provides for a general committee to be composed of regular army general staff officers and an equal number of reserve or national guard officers. In addition, 52 other committees, representing each state and territory, will arrange the National Guard organization in each state and territory. Some of these committees have not been appointed by the governors and consequently this work has not yet been put under way.

The new regular army strength provides for approximately 17,000 commissioned officers. To provide this number about 7,000 reserve and temporary officers have been kept on duty and it is the plan to reach the full officer strength by commissioning about 7,000 of such officers and enlisted men in the permanent army. Officers and men to be so commissioned will be selected by a board, known as the Pershing board, headed by General Pershing and including six other officers.

SEIZE LIQUOR NEAR TOLEDO WORTH \$267,000

14,000 Quarts of Old Kentucky Booze is Confiscated On Siding.

(By Associated Press.)

Toledo, O., July 23.—Federal agents last night made the biggest whisky seizure in the history of this section of the state when they confiscated liquor valued at \$267,560 on a railroad siding at Lang, Ohio.

The whisky 14,000 quarts of good quality was consigned to a Montreal, Canada company and shipped from Kentucky.

WHAT'S NEW IN FALL MILLINERY

Here are two new models shown in the advance fall millinery displays. The hat above is a sports and general wear model made of blue velvet with gold cord for trimming. The hat below is a pretty model with a scalloped, upturned brim edged with ribbon and large yarn dots embroidered on every scallop.

ANOTHER TRUNK MYSTERY BOBS UP IN NEW YORK

Body of Woman Found in Trunk Shipped From Detroit Several Days Ago.

Found Among The Unclaimed Express by Employees Making Examination.

(By Associated Press.)

New York, July 23.—The body of a nude woman, jammed in a trunk, was found today by employees of the American Express Company among the unclaimed baggage in the company's East 44th Street warehouse.

The trunk had been received here from Detroit June 17. Believing that the trunk contained perishable merchandise, one of the expressmen opened it and found the woman's body.

The body had been forced into the trunk and the clothes apparently had been thrown in afterward. There were no marks of violence on the body, employees said.

Police immediately took possession of the trunk and its contents for investigation. The trunk was shipped through the express company to this city by a man giving the name of "A. A. Tietum, Detroit," according to the records. It was addressed to James Douglas, New York City.

Killed Thirteen-Year-Old Girl Near Pottersville, Michigan, And Farmers Trail Him Down

State Constabulary is Aiding In Work.

(By Associated Press.)

Pottersville, Mich., July 23.—Leaders of a band of 300 farmers searching the country for an unidentified man who yesterday attacked and killed Beatrice Hicox, 13 years old, on a farm near here, declared today they had the fugitive surrounded in a swamp.

The farmers, all armed, were reinforced during the night by a squad of state police. The girl was killed early Thursday near her home. An examination of the body showed she had been strangled and her head crushed with a large rock.

BRITONS SEE SECOND WAR AHEAD

British Public Uneasy Over A Possibility of Rendering Assistance to The Hard-Pressed Poles.

Declaration of Lloyd George Causes Deep Agitation

(By Associated Press.)

London, Eng., July 23.—The British public is disturbed by the possibility confronting it that the Allies may be compelled to enter another European war to save Poland.

This position was made plain by Premier Lloyd George's speech in the House of Commons Wednesday, and all the newspapers are speculating on it.

Heretofore, the impression has been that England's part if Poland were faced with invasion by the Bolsheviks, as it now appears to be faced, would be limited to furnishing munitions.

RESOLUTE AGAIN WINS

(By Associated Press.)

Sandy Hook, N. J., July 23.—(Bulletin)—Resolute won today's international cup race after a spectacular finish and tied two to two with Shamrock four in the fight for the America's cup. Resolute won by even more than a minute and a half.

THE RESOLUTE CROSSES LINE IN THE LEAD

(By Associated Press.)

Sandy Hook, N. J., July 23.—Resolute, defending the America's cup dashed first across the line today at the start of the fourth international yacht race which she must win to prevent the Shamrock from capturing the priceless pewter trophy.

At 1:55 observers ashore estimated that Resolute was leading by only a little more than a quarter of a mile.

NOMINEES SAY THEY BELIEVE HARDING IS WET

(By Associated Press.)

Lincoln, Neb., July 23.—Aaron Watkins, of Germantown, Ohio, and D. L. Colvin, prohibition party candidates for the presidency and vice presidency, today issued statements condemning the stand on prohibition taken by Senator Harding in his speech of acceptance yesterday.

"We notice with regret that Senator Harding mentions and emphasizes the fact that many dissent from the law and he will, if possible, we think, secure its repeal."

"SNAG" HAS RETURNED SHAKEUP ABOUT DUE

It will be welcome news to the baseball fans of Fayette county to learn that Noah Emery, otherwise, "Snag" Emery, of Hillsboro, a member of the Washington Athletic baseball club who has been playing ball

with the Stuttgart team in Arkansas, has completed his contract with the oil players and will be in the lineup Sunday afternoon against the Jeffersonville Tigers.

He brought back with him two of his team mates at Stuttgart, Earl Gains, a pitcher, and Herschel White, an outfielder, who are also citizens of Hillsboro. Carl Noon, business manager of the Athletics, received a telegram from "Snag" Thursday stating that he would be on hand with the two professionals.

Emery's return to the fold means that the threatened shakeup in the team is about due and also that Washington's losing streak on the diamond will be immediately brought to an end

TAKE LARGE CATFISH FROM DEERE CREEK

One of the largest fish caught by local men recently was taken from Deer Creek near "The Ridge" one day this week with the combined strength of David Craig, Sr., David Craig, Jr. and Chester Koble. It was a catfish that weighed 12 pounds and measured 30 inches in length. Its head measured exactly one half foot across.

On the same day the group of fishermen caught a fish of the same species that scaled five pounds.

DANGERS OF TURN ELIMINATED BY WORK OF COUNTY SURVEYOR

Screen of trees on sharp turn at bridge prevented view of approaching machine.

Screen of trees removed allowing unobstructed view and bringing danger down to minimum.

The accompanying pictures illustrate the elimination of a very dangerous condition that existed on the Leesburg pike where the approaches to the bridge over Sugar Creek at a sharp curve in the road concealed by a thick screen of trees along the roadside, preventing auto drivers from a clear view of the road.

The first picture was taken in October, 1919, and the lower one taken in June, 1920, the first showing the dangerous condition due to the trees and the second showing how a clear unobstructed view of the bridge and road resulted from the removal of the trees.

The change, made possible by the work of County Surveyor Frank M. Kennedy, and the kindness of the abutting property owner, A. C. McCoy, eliminates the likelihood of serious automobile accidents at the formerly dangerous turn, and is but one of numerous dangerous curves at bridges in Fayette county where Surveyor Kennedy has either eliminated the danger or is planning to do so in the immediate future.

With the manifold duties that have been added to the office of County Surveyor in the past few years, the county surveyor is one of the county's busiest and most important officials.

LIGHTNING STRIKES LARGE BARN BURNS

During the electrical storm that passed over Fayette County about one-thirty Thursday afternoon lightning struck the large barn of Francis DeVoit, just over the line in Greene

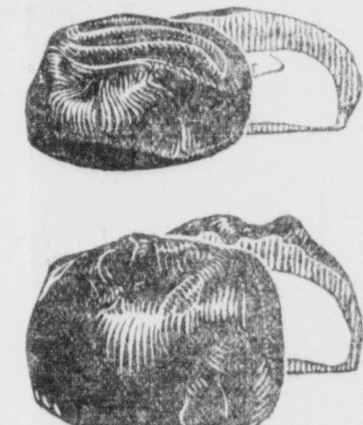

county, near Bowersville, and burned it to the ground with a loss of almost three thousand dollars.

The barn was filled with new hay and also contained about four hundred bushels of corn.

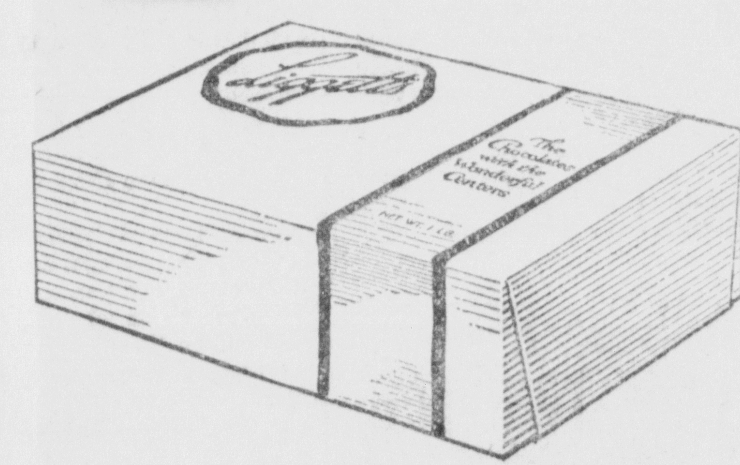

A young calf perished in the fire.

WHY DOES ONE BATTERY LAST LONGER THAN OTHERS?

Well, storage batteries are not different in that respect from other manufactured articles. The reason one battery outlasts others is because it has more life built into it.

That's why the Cooper Battery has behind it a longer guarantee than others. The manufacturers know what sort of materials and workmanship they put into them and know how long they are willing to take the risk on them after they are placed on the car.

LIFE IS BUILT IN

The life is built right into them—plates good and heavy; separators the best known, genuine cedar; case, carefully made of naturally seasoned hard wood. These are the things which recommend the Cooper to you.

CORN IS TASSELING IN FAYETTE COUNTY

Corn over Fayette county is making rapid growth, assisted by some of the most ideal growing weather that the

crops have ever experienced. The more advanced corn is tasseling out and will soon be in the roasting ear stage.

Rains that have seemed to come at the exact moment desired have caused a luxuriant growth and almost all the fields are of an unusually dark green color.

In many instances farmers planted corn in the fields from which the early crop of peas was removed and although very late this crop is also making rapid growth with prospects of a satisfactory yield.

PARALYSIS FATAL TO GEO. SHERIDAN

Paralysis caused the death of Mr. George Sheridan, 70, a life-long resident of Fayette county who recently moved to near Bowersville, in Greene county, Thursday night at his home.

Last Sunday Mr. Sheridan suffered a stroke of paralysis while sitting at the dinner table, which rendered him unconscious and from which he never recovered. Two years ago Mr. Sheridan suffered a stroke which affected his speech and he had never spoken a word since that time.

Besides the large family connection which he leaves, he is remembered by many friends who knew him as a progressive and industrious farmer.

In his immediate family he is survived by four daughters and four sons. His wife died several years ago. The brothers surviving are Joe, of Sabina; Ed, Charles and Will, of near Staunton; Robert, of Indiana; John Sheridan, of near Staunton is a half brother. His sister is Mrs. Nancy Blackmore of near this city; and Mrs. Cory Irons, of South Solon, is a half sister.

Funeral services will be held Monday morning at St. Colman's in this city and burial will be made in St. Colman's cemetery.

LOCAL CITIZENS ATTEND MARION CEREMONIES

Local Republicans attended the notification ceremonies tendered in honor of Senator Warren G. Harding, Republican nominee for the presidency, at Marion, Thursday, by the automobile and because of the fact that they hailed from Washington C.H. were given "a place in the sun".

The delegation returned with the thought that it was one of the biggest days in Ohio's history and state that Marion fairly outdid herself in extending hospitality to the many thousands who came into the city from the earliest hours of the morning until the afternoon.

The majority of those who attended in the local delegation took their lunches with them and that stood them in good stead, it is stated, for every place of business in Marion was jammed every minute. Traffic moved inches at a time and parking space was a valuable piece of property. Owing to the fact that Jess W. Smith one of Harding's campaigners, had arranged for the Washington delegation, they were made comfortable and snug as soon as they reached the city.

Among those who attended from this community were Ray E. Moots, Jess Maddux, Dr. Neil B. Jones, Herbert Cockerill, G. D. Paul, M. S. Daugherty, Ellis Daugherty, A. W. Facing A Crisis

The Washington Gas and Electric Company, on Wednesday, issued a statement to the people of this city and county, setting forth in clear and concise language, the conditions which it is now confronting.

For many months the company asserts that it has beseeched the City Council to agree to an adjustment of rates to be charged for electric service—power and light—based on present cost conditions and that council, having failed to agree to any adjustment, the company is forced to curtail, so far as possible, the service now demanded of it and that it cannot promise to assume responsibility by taking on any new service.

There should be no difficulty in arriving at a fair rate schedule—a schedule which will enable the company to meet present requirements fully and take care of the new demands of this growing and prosperous community, as they arise.

Nobody wants to pay more for electric current than the present schedule, but that's not the point. The question is do we want adequate service and if we do we all realize that no company can or will undertake to furnish it at a loss.

Business places and private homes, anxious for increased service, find the company unwilling to assume new service obligations under present conditions. That state of affairs cannot be permitted to exist without stunting the growth of the community and effecting, seriously, the present business and living conditions.

The company's statement is a frank and reasonable one. As we have asserted before, when a discussion of conditions warranted, it should not be difficult for council to ascertain what it costs the electric company to produce electricity.

The company offers access to all its books, indeed council has, at considerable cost to the company, obtained a full exhibit, by its own experts of conditions. It should not be difficult to bring that exhibit up-to-date and then, on the facts, agree with the company on rates. Make the new agreement for a short time so that with changed conditions new and just schedules may be agreed upon.

We all know that coal, in the last six years, has advanced in price several hundred per cent and the company asserts that the cost of coal is about three-fourths the total cost of operation.

The problem is one of business—purely and simply. If the company is entitled to a higher rate schedule, and it looks like it was, then council should grant it at once—promptly and have done with it.

If it is not entitled to the relief asked council should refuse the application and be as frank in giving its reasons to the public as the company has been.

Either the company's statement is true or false. If false council should, in a public statement, expose it.

It will not do for council to refuse to act—to pigeon hole the reports of its own committees, without investigating, and give the public no reason for its action.

Affairs seem to have reached a very critical stage. Council must not let them drift any longer. We should reach an agreement, if a just one is possible, or prepare to fight it out with the company.

Before the people undertake a finish fight on so serious a matter, however, they are entitled to know why council is unable to reach an equitable agreement.

POETRY FOR TODAY

STORMBOUND

"Beyond my ken the winds their combat wage,
The dashing waves roll in on every side,
And we the victims of the surging tide,
Lie impotent their fury to assuage.
Its black sides straining with the tempest's rage,
Our ship is borne along without a guide
The tattered sails are rent and cast aside,
The hold is flooded and no anchor-age."

So wrote Alcaeus in the distant past
When civil strife in Lesbos held full sway
And petty tyrants sought to rule the land.

We, too, sail on by wind and sea harassed,
And through the midsts we blindly grope our way;
God grant we find a pilot to command

THE HESSIAN FLY DAMAGE OHIO WHEAT

Great damage was done by the Hessian fly this year to Ohio's wheat crop according to a survey of 43 counties just completed by entomologists of the Ohio Agricultural Experiment Station, the Board of Agriculture of Ohio and the Ohio State University. Hessian fly was found in all the counties visited, and has increased in enormous numbers since one year ago. Damage from this insect was most severe in northern Ohio where the infestation reached as high as 83 to 89 percent of the straws in two northwestern counties. Throughout the northern one-third of the state the crop was badly straw-broken. Southern Ohio had much less fly and the damage was not so severe. The percentage of straws affected averaged from 15 to 30 percent for most of the counties in the southern one-half of the state. In this connection it is interesting to note that the fly-free dates of 1919 were correctly forecasted in the southern part of the state, while the northern part much wheat became infested by fly last fall even when sowed after dates which are usually fly-free.

The dates which will be used this year have been changed slightly in the northern part, and vary from September 20 in northern Ohio to October 5 in Lawrence County.

Wheat joint-worm has decreased in all parts of the state and is not expected to be a serious pest in the immediate future.

Wheat midge or "red weevil" was found present but not in excessive numbers in any county.

MAN SO DIZZY HE FELL ON STREET

Had to Be Picked up By Friends:
Came from a Sluggish Liver He Says. Claims Dreco has Worked Off His Liver, Aided His Stomach and Put Him in Good Shape.

"I got so dizzy that on three different occasions I fell on the street and had to be picked up by friends," said Mr. J. E. Anders, who lives at 33 Oak avenue, Zanesville, Ohio.

"My stomach was in bad shape and I often got bloated up with gas. My kidneys were out of order, and my legs were swollen to double their natural size. I was very nervous, got no sleep, had headaches and my vitality was almost gone, but I'm a different man now. I haven't had one dizzy spell since I took Dreco, and my other troubles have passed off all so. I sleep well, have a good appetite, no more backache, or headache, nor that awful gas in my stomach. Truly Dreco has helped me very much and I suggest that every person suffering as I did, try this grand remedy."

Dreco is nature's product, being the juices of herbs, roots, barks and leaves, gathered from different parts of the globe and properly combined. These juices combine with the secretions of the stomach, are taken up by the blood, and their life giving properties distributed to all sections of the body, eliminating the collected poisons in the system, and sending them from the body, restoring it to normal health.

All good druggists now sell Dreco and it is highly recommended in Washington C. H. by Frank Christopher.—Advt.

Get Goodyear Value in Tires for Small Cars

Don't be misled by very cheaply priced tires, for tire economy is not a matter of what tires cost originally but of what tire service costs in the end.

True Goodyear mileage and economy are built into Goodyear Tires, of the 30x3-, 30½x3- and 31x4-inch sizes, in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking one of these sizes, you can equip it with Goodyear Tires at your nearest Service Station.

Go there for the exceptional value in these tires made possible by Goodyear's resources, experience and demonstrated expertness in tire manufacture.

RAILROADERS ACCEPT AWARD

Chicago, July 23.—Acceptance under protest of the United States Railroad Board's wage decision was decided upon at an executive conference here last night by all but one of the 16 recognized railroad unions. It was announced following the meeting, by Timothy Shae, of the Brotherhood of Locomotive Firemen and Enginemen.

The one exception was the order of Railway Telegraphers, which referred the award to its membership, together with a strike proposition.

WILLIS CASE UP IN MAYOR'S COURT

Before Mayor V. J. Dahl the case of Ohio against Isaac Willis charged with "keeping a place" was started at nine o'clock Friday morning with an array of witnesses summoned for both sides.

Representing the state are City Solicitor Troy T. Junk and his residence here Thursday. Attorney Archart, of Columbus, Law- yers for the defense are J. D. Post Thursday evening. At his bedside and former District Attorney Bolen, were Mrs. Vanderbilt; his daughter, the Duchess of Marlborough.

At two o'clock in the afternoon the case was still in progress with four witnesses for the state having undergone examination. Those on the stand for the state were Deputy Sheriff A. C. Nelson, Sam Upthegrove, Louis Upthegrove, and Charles Jackson.

James Sharp, an employee of the Willis Poolroom, was first to be examined for the defense.

Factors Important in Growth Are Still in Evidence Here

While it has been our constant purpose to offer nothing to the buying public which we could not recommend with our personal reputation and backing of the maker, frankly we believe the main factor in our continued expansion has been the ever dominant purpose to serve those who come to us in such a way that they were glad to come back again, and to send others to us.

Those factors have not been lost sight of. They are still very much in evidence, for without them the success we have thus far gained could not be permanent. If we cannot serve in such away as to merit your future business, what advantage is there in making an effort to gain your present patronage?

From a small beginning five years ago, with one man in charge, this tire and repair business has grown to such proportions that it requires five people to care for those who have learned our method of dealing. We have maintained a policy throughout, whether you wish to purchase a tire, several tires, or a small repair task, of not allowing you to go away dissatisfied. We believe we have almost a one hundred percent record on that score. If you appreciate such a record, we would be pleased to serve you.

20,000 MINERS ARE ON STRIKE

(By Associated Press)

Belleville, Illinois, July 22.—Coal mines throughout southern Illinois were faced with possibility of being forced to shut down on account of the unauthorized strike of the day laborers which started Wednesday and is reported to be steadily spreading.

Approximately 20,000 men are idle, according to the strikers.

GOMPERS SAYS RAILROADERS WILL ACCEPT

(By Associated Press)

Washington, July 22.—Discussing the wage award of the railroad labor board, Samuel Gompers, president of the American Federation of Labor in statement tonight declared that while the railroad employees are disappointed, "it is indicated that they will not strike to enforce a fairer decision of their needs."

The labor leader announced his opposition to proposed increases in railroad rates. Such action would be unnecessary, he declared.

BACK ON FARM, GOV. COOLIDGE DOES CHORES OF BOYHOOD OVER AGAIN

Governor Coolidge at his father's Vermont home.

Memories of his boyhood days crowded back upon Governor Coolidge, the Republican vice presidential nominee, when recently he returned to the old Vermont farm on which his father lives, to rest up and prepare his speech of acceptance. Clad in overalls and wearing a pair of boots he found in the attic—boots his grandfather had made back in 1858—Governor Coolidge milked the cows, mowed the hay and did the other hard work which, when he was a boy, had

caused him to decide to leave the farm and enter the profession of law.

The horses are coming. Rainsboro Fair had over 100 race horses. We will have them and some more. Three good races each day, Wednesday, Thursday and Friday, for purses of \$400.00 each.

The Washington Band, and there is none better hereabouts, will furnish music as usual.

Boys' and Girls' Club Work moving finely. Be sure to see their exhibits.

There will be more distinguished pigs of noble ancestry on the grounds than were ever gathered together at a County Fair. Come and meet them.

Here is an extra offering, not in the catalogue. Get busy, boys and girls, and get your corn ready.

Boys' and Girls' Corn Show at Fayette County Fair

Prizes for the best exhibits of corn grown in Fayette county in 1919 will be awarded at the Fair under the following conditions:

Competition open to any farm, village or city boy residing in the county, 19 years old or under.

Corn need not be grown by exhibitor, but must have been produced in Fayette county, of the 1919 crop, exhibit to consist of six ears of any variety, and must be selected in person by the exhibitor. Exhibitors limited to one entry.

The contest will be under the rules governing county stock judging contests.

Prizes:—1st \$6.00; 2nd \$5.00; 3rd \$4.00; 4th \$3.00.

Competition in this contest is urged. The winner in this might win the Ohio State Fair Contest.

Further information may be had from Mrs. F. E. Haines, Washington C. H., or Miss Maude Cox, Parrotts Station.

GOOD GASOLINE AND GOOD OIL
MAKE A GOOD MOTOR BETTER

Concentrated Effort Enables Us to Serve Best

Generally speaking, our business is "the oil business." That includes, oils, greases and gasoline. And that constitutes the limit of our business activities. We have concentrated on the "oil business," have studied it, and learned it. Folks like to deal with us because we have given them the benefit of what we have learned from concentrated effort.

Our patrons like to deal with us because they know in advance just what they will receive. They know in addition to the dependable products we dispense, they will be dealt with fairly, pleasantly and cheerfully.

And our concentrated effort is what has made possible the securing of the best of products. We have learned what folks want and have secured it for them. It has been our aim to make our business just a little more than an institution to "get the money," we want to be considered your servants when your need is anything in the "Oil Business."

COAL SCARCITY MAY CLOSE PART OF POWER PLANT

With only a five day supply of coal in sight, The Washington Gas and Electric Company Friday morning was facing the possibility of an early shut-down of all commercial lighting and carrying enough current to illuminate the streets of the city until additional coal is obtained.

General Manager Gross stated Friday morning that while every effort is being made to obtain coal that the outlook was very gloomy and that unless more coal could be obtained than is in sight at the present time, radical reduction in service must be made.

It would then be necessary, Manager Gross states, to abolish all lighting except the street lights, and if the situation becomes too critical and coal can not be obtained, it may be impossible to light the street lamps. In event that commercial lighting is turned off temporarily all residence and business lighting will cease, except where gas is used.

All coal being obtained, it is stated is being obtained by the hardest work and at excessive costs.

NO ARRESTS FOR INTOXICATION IN PAST SIX MONTHS

Announcement is made by Mayor V. J. Dahl that during the past six months, and in fact not since early last winter, has there been a single arrest on a charge of intoxication.

This remarkable record, which is in striking contrast to former times when arrests for intoxication often reached a half dozen each day.

During the period from the time the city was voted dry until other saloons were closed generally by war-time prohibition, the number of arrests for intoxication usually averaged several each week.

During the six months just ended very few drunks have been seen on the city streets, the number probably having been greater in June than at any other time in the six months.

FUNERAL SERVICES OF DAISY BANTER

At the home of Charles Himmler on Fayette street, funeral services were held Wednesday morning for Miss Daisy Bainter who died Monday night in Mt Carmel Hospital at Columbus. Services were in charge of Rev. Groves of the Christian Church.

There was a wealth of floral offerings from relatives and friends. Following the services burial was made in the Good Hope cemetery. Pallbearers were Messrs. Logan Busick, Charles Himmler, Frank Tilton, and David Rutledge.

Those from out of town who attended the services were, Mr. Elgar Bainter, of Good Hope; Mr. and Mrs. Pete Bainter, of Wilmington; Mrs. J. M. Gibson, of Springfield; and Mrs. John Gibson of Springfield.

BOGAR RETURNS FROM LONG CRUISE

Paul Bogard, son of J. H. Bogard, of Sedalia, formerly of Fayette county is home on a 15 day furlough.

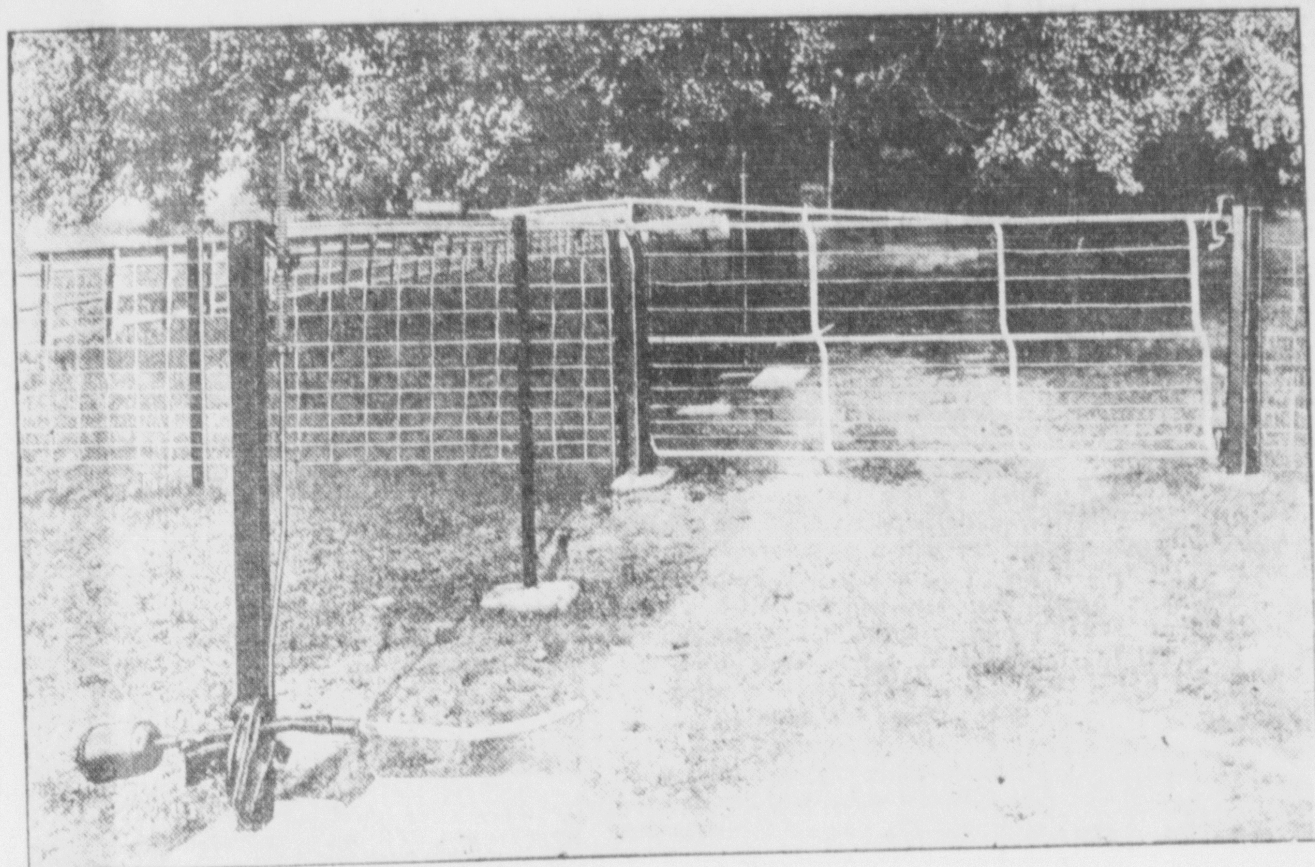

Young Bogard is stationed on the U. S. S. Stringham, a destroyer of the Atlantic fleet, now docked in Philadelphia. The Stringham has just completed a long cruise to Hawaii by way of Panama, Peru and Ecuador, South America, then to Turkey upon its return. He says the conditions in Turkey are not improving. The Stringham also took part in the Hessian campaign in Hawaii, where a revolution is now in progress.

FIND "WHITE MULE" HIDDEN IN FORD

Twenty-nine quarts of moonshine whisky, commonly known as "white mule" was confiscated from a Ford automobile which had been left at a Hillsboro garage this week.

The car and liquor were seized and sealed under the Volstead act, and the owner, apparently fearing that Uncle Sam had a stronger kick than the "white mule" left for parts unknown. The Hillsboro police have obtained the man's name but have not announced it.

MEMORIES

Remember the old two cylinder, chain drive, rear entrance automobile—that popped and chugged along like a threshing machine?

The early "patent" gates were good—as far as they went—just as the earlier automobiles were good. It is not our purpose to ridicule any honestly made and marketed article. Those gates were a big step forward, made by reputable men, and worth their price.

But their life was only a few short years, they sagged, they were unsightly they could not operate in bad weather when they were most needed; and they were continually getting out of order.

BE SURE THEN GO AHEAD.

Before "Crisco" was put on the market the makers experimented for years to make sure it was right. The inventions of Mr. Edison were all subjected to the most painstaking experiments.

Technical tests alone are not sufficient. The Mark Cross safety razor was used by thousands of men in all walks of life before the maker began his great advertising campaign.

Years have been spent in studying Guth Gates in actual use and in perfecting them; Guth Gates are perfectly adjusted on tool steel pivots, between steel posts, set in concrete.

This new gate has been built with the advice of engineering experts and made of the finest of materials. This is carried out even to the painting. It is finished in white, red and black auto enamel and painted by hand as carefully as an automobile.

The worlds greatest fence manufacturer—The American Steel & Wire Co. of Chicago—recommend Guth Gates to their customers.

In South Carolina roads often cross through private property where gates must be opened. In 1913 a rural route there was equipped with Guth Gates. In July 1920 the county commissioners wrote inquiring prices to equip the county roads.

A United States Commissioner of Patents has called the gate "The Acme of the Mechanics' Art."

CLARENCE ROBERTS

MORE GOOD THAN TRIP TO SPRINGS

Had Rheumatism So Bad He Could Not Stand on His Feet several Months

"Yes sir, I can testify to Tanlac being good for stomach trouble and rheumatism," said William C. Huff, 312 Garden street, Toledo, Ohio, a well known employee of the Willys-Overland Company. "For the medicine set me right more than two years ago and I am still feeling fine."

"My trouble started about ten years ago with loss of appetite. Soon after this I commenced to suffer from indigestion and sour stomach and it wasn't long until inflammatory rheumatism got into my feet and legs. For months I was unable to stand on my feet and intense pain most of the time. My feet and legs would swell up to twice their normal size and if a red hot iron had been run into my flesh, I don't think it could have hurt worse. Now and then I felt a little better, but the trouble would soon come back worse than ever, and something more than two years ago I got in such a bad fix that I was advised to try Hot Springs."

"After taking the treatment there six months I seemed to be considerably improved, but a few months later the old trouble started up again and it was at this time that a friend of mine suggested Tanlac. The first two bottles brought about such good results, giving me a fine appetite and making me feel so much better, that I bought more and just kept taking it and improving. Well, after finishing my ninth bottle I felt perfectly sound and well and had the surprise of my life when I got on the scales and found I had actually picked up forty pounds in weight, and the best of it is I have held my wonderful increase in weight and strength and have felt fine to this day. I have the best reasons in the world for praising Tanlac and I don't hesitate to recommend it, for it set me right when everything else failed. I am enjoying better health than I have in fifteen years and can hold my own with the best of them. Tanlac built me up until I neither look nor feel like the same man."

Tanlac is sold in Washington by C. S. Haver, in Lowell by Mason's Drug Store, in Jeffersonville by J. B. Davis, in Octa by I. W. Murphy and in Milledgeville, E. L. Ford Sons, Lee Ortmann, Selden. — Advt.

THIS CITY ALONE ESCAPES RAIN

Reports from the various municipalities of Fayette county show that Washington Court House and vicinity was the only spot to escape the rain which fell between one and two o'clock Thursday afternoon.

In the eastern part of the county around New Holland there was a moderate rain which was accompanied by a vivid electrical display; Jeffersonville received a light shower, but immediately north of that place it was heavy; farmers were driven from the field around Milledgeville; at Bloomingburg there was rain and much lightning; Good Hope received a light shower.

The rain was probably the heaviest south of this city a few miles on the Chillicothe pike. All farm work was stopped and farmers who had been driven from the threshing fields were surprised upon coming to this city to find that it had not rained here.

It seems that there was a hole in the great rain cloud and Washington Court House happened to be the one place fortunate to escape.

FISHER AND HILLERY PRINCIPLES IN BOUT

Announcement is definitely made of the principles for the next wrestling match to be held in this city. Tom Hillery has accepted the challenge given by John Fisher when he wrestled Hessouff Hassan at the Armory Tuesday evening and agreed to a finish match with the strong man of Akron.

Hillery has been in training for several weeks for his scheduled match with Paul Bowser, which was indefinitely postponed, and is ready to meet Fisher at any time. The date set for the bout will probably be decided this week.

Fisher, who is a veteran of two years' service in France, has expressed his desire of giving a strong man exhibition in this city for the benefit of the Red Cross, the local chapter to get the entire proceeds. Fisher declares that the Red Cross saved his life in France and he is desirous of repaying as far as possible.

three sons. She asks for alimony and the custody of the children.

Did You Know That

Sunlight Creameries todate have brought more than 25 new families into Washington C. H.?

A weekly pay roll aggregating several thousands of dollars has been largely expended among the merchants of this city?

This pay-roll is steadily increasing as each new department is opened and dozens of additional employees added?

The concern is in its infancy and expects to add new buildings and increase facilities as the business grows?

The construction and opening of the big plant was accomplished under serious handicap of excessive prices, shortage of material and poor shipping facilities?

Sunlight Creameries are a real part of the city and community and as such have the best interests of the community at heart?
